CIVIL WAR VETERANS BURIED IN AUSTRALIA

Over a period of the past twenty years a number of very dedicated Civil War researchers have been involved with the search for Civil War buried around Australia and New Zealand. Led by Roy Parker, the efforts of Terry Foenander, Len Traynor, Bob Simpson and I have located almost 100 veterans in the following cemeteries. Thanks to the talents of Ed Milligan of Alexandria, Virginia, the members of the CWRTA and numerous friends, colleagues, associates and those in the many libraries, councils, genealogical societies and such, we are pleased to list the following. Note that most of these have been verified but we still have questions on some - any information will be gratefully received to the address at the bottom of this list.
